## **\$35 Million Empire State After-School Program Funds Awarded**

**Albany NY** – Governor Cuomo and the Office of Child and Family Services (OCFS) announced today the school districts that will be receiving funds from the \$35 million EmpireState After-School program. The program which was approved in the 2018 budget will provide additional afterschool spots for some 22,000 students across New York State.

“The Empire State After-School program is a historic investment in the youth and families of New York State,” said Kelly Sturgis, Executive Director of the New York State Network for Youth Success. “Thanks to Governor Cuomo, 22,000 additional students will have the opportunity to participate in an afterschool or summer program. These programs have real and lasting positive impacts on the lives of youth and their families. We look forward to continue working with the Governor and the Legislature to expand this program over the coming years so every child who wants a program has access to one.”

In addition to adding 22,000 new afterschool spots for youth across New York State, the Empire State After-School program could also create over 2,000 new jobs for front line staff in the afterschool programs.

### **About The New York State Network for Youth Success**

The New York State Network for Youth Success is dedicated to building a youth-serving system that increases the quality and availability of afterschool and expanded learning programs.

The Network for Youth Success supports all programs that promote young people's intellectual, social, emotional, and physical development outside the traditional school day. These programs include those that serve youth in kindergarten through 12th grade, take place in schools and/or in community-based settings, and occur before and after school, during weekends, holidays, and summer breaks, or during the school day through partnerships with community organizations.

The Network for Youth Success convenes partners and coordinates them around a common agenda focused on partnership development, policy development, and capacity building. The network connects practice with policy across a broad range of state, regional, and local partners that represent the afterschool, expanded learning, community schools, and youth development fields broadly.
