

FY2018-19 BUDGET PRIORITIES FOR AFTERSCHOOL, SUMMER, AND EXPANDED LEARNING

ADVANTAGE

AFTER SCHOOL PROGRAM

Restore Advantage After School Program (AASP) funding to the FY16-17 appropriation level of \$22.3 million. If funding is not restored to the FY16-17 level, the next round of Advantage After School will serve an estimated 1,800 less students.

- At least 1,800 students are at risk of losing access to afterschool programs beginning next school year if funding is not restored to \$22.3 million.
- Without a restoration to \$22.3 million, a new Request for Proposals for Round 10 of AASP is not guaranteed, meaning 56 Round 8 grantees expiring June 2018 may not have an opportunity to apply for a new five year grant until 2019.
- Out of the 177 AASP's operating across the state, 103 of these programs are located in areas not currently served through the Empire State After-School Program.
- Every recent competition for afterschool funding has left three out of four applicants unfunded. Unfunded, but qualified, applications for the 2014 round of Advantage After School funding totaled over \$31 million; the 2012 round totaled almost \$48 million.

EMPIRE STATE

AFTER-SCHOOL PROGRAM

Maintain level funding of \$35 million for FY18-19 and support the Governor's proposal for an additional \$10 million to expand the number of students served by 6,250. Support the Governor's proposal to expand eligibility to nonprofit community-based organizations (CBO's) to apply directly for funding, ensuring that students and families benefit from both schools and organizations who have expertise in delivering effective afterschool and summer programs.

EXPANDED LEARNING

OPPORTUNITIES DATA SYSTEM FOR NEW YORK STATE

Invest \$1.2 million in the acquisition of a data system for tracking participant outcomes from expanded learning opportunities (ELOs). This system would support afterschool, summer, expanded learning time, community schools, and other models that offer youth safety, learning, and enrichment beyond traditional school hours. The Network estimates initial costs at approximately \$1.2 million and subsequent annual costs at approximately \$400,000. A data system would help support growth in program quality, simplify data collection and analysis for program providers, and inform New York State policymaking.

ENACTED BUDGET**

NEW YORK STATE
NETWORK FOR
YOUTH SUCCESS

IN COLLABORATION WITH THE ASSOCIATION OF NEW YORK STATE YOUTH BUREAUS, CAMPAIGN FOR SUMMER JOBS, AND THE NEW YORK STATE COMMUNITY SCHOOLS NETWORK, THE NETWORK SUPPORTS THE FOLLOWING BUDGET ASKS:

YOUTH DEVELOPMENT PROGRAM

Restore \$1.698 million in funding added by the Legislature in the FY16-17 Final Budget and eliminate the sunset date of the Youth Development Program. At minimum, YDP should be extended for an additional 3 years.

EXTENDED SCHOOL DAY/SCHOOL VIOLENCE PREVENTION

Maintain funding at \$24.3 million for the ESD/ SVP program that was proposed in the Executive Budget.

COMMUNITY SCHOOLS

Maintain \$300 million in existing community schools funding and support Governor Cuomo's proposed \$50 million increase to Community Schools Aid to adequately fund and sustain community schools statewide. Invest an additional \$415,550 in funding for Community Schools Regional Technical Assistance Centers (TACs), for a total of \$1.615 million.

SUMMER YOUTH EMPLOYMENT PROGRAM

Increase funding for SYEP by \$4.4 million for a total appropriation of \$44.4 million. This increase would add an estimated 3,000 new jobs.
