^The FY23-24 budget proposes to move the Empire State After-School program funding from NYSED and the Advantage After School program funding from OTDA to the OCFS.

\* ESD/SVP - Only ESD portion of the grant is dedicated to afterschool programs

\*\* Only federal source of funding for afterschool, summer, and expanded learning programs. Each state receives funds based on its share of Title I funding for low-income students

\*\*\*\* School-age child care (SACC) programs are a critical part of the child care system in New York. However, while SACC programs provide afterschool care for school-age children, not all afterschool, summer, and expanded learning programs are SACC programs.

\*\*\*\* Expanded learning is a key pillar of the Community Schools strategy. The State sets aside part of Foundation Aid towards creation and expansion of Community Schools.
