Spotlight: Flight Crew 2024 Announcement

MILLION GIRLS MOONSHOT

51 young people from 50 states have been selected to join the 2024 [Million Girls Moonshot Flight Crew](#)! This year the 2024 cohort will advocate for afterschool STEM learning and equity in STEM for young people across the nation.

"There is STEM in everything we can do." -Jazminn

New York is delighted to tap into the expertise of the Flight Crew. Youth voice and insight into their afterschool STEM experiences will help us amplify the importance of our work and its impact on the lives of millions of young people, their families, and communities.

Congratulations to Jazminn on being selected to represent New York for 2024. Look for more about Jazminn and the other Flight Crew members in future newsletters and on our social media.

Upcoming Events

February and March

There is still time to sign up for free virtual [events](#) in February and March hosted by the Network for Youth Success!

Reflecting and Processing STEM Experiences February 28th at 10 am

In this training, participants will practice leading an engineering activity in a way that incorporates reflection for STEM learning.

[Click here](#) to register.

Solar Eclipse Resources for NYS March 9th at 10 am

NYS is lucky to be in the path of totality for the 2024 Solar Eclipse happening April 8th! Join Abigail Rice, our STEAM Coordinator for an hour long virtual session about the Solar Eclipse. Abbi will share general information about the Solar Eclipse, events and viewing parties in NYS, and activities for students and families to partake in before and during the Eclipse. We hope you leave this session inspired and excited to experience a once in a lifetime view here in NY!

[Click here](#) to register.

Applying Strategies to Document STEM March 12th at 6:30 pm

Apply strategies used to support documentation of STEM concepts in multiple formats, particularly symbols, drawings, models, diagrams, charts, tables, text or non-verbal means.

[Click here](#) to register.

Giving Youth Control with Project Based Learning March 26th at 6:30 pm

Youth should direct their own fun and learning, when it is developmentally appropriate. Learn techniques for engaging youth in decision making, developing projects, and leading their own development in this active workshop.

Training Plus Coaching Opportunity (No-Cost)

ACRES

Asking Purposeful Questions

March 1 @ 10:00 am - 12:00 pm

FREE

Asking the right question at the right time can unlock new possibilities in a child's thinking. Learn how to craft questions that promote deeper learning in young people. Focusing on STEAM (science, technology, engineering, the arts, and math) activity, this workshop will explore the creation and use of timely questions to maximize hands-on learning.

Join Sara Kobilka (pictured) in this engaging session that will help you spark young people's thinking. This is the first of three meetings, for a total of six hours of OCFS training credit.

[Click here](#) for more information and to register.

Tech Talk Tuesday - Celebrating Black History Month

Million Girls Moonshot

Join STEM Professionals - from analysts to business transformation managers - on **February 27th from 6:00 - 7:00 pm ET** for a conversation about STEM careers. Programs, classrooms, and students can tune into a live conversation with professionals working globally at Verizon. **Register here.**

**It is highly recommended that students have their own device OR are paired 2-4 students per device. This will help with live Q&A*

Contribute to our next newsletter...

Submit your news, events, trainings, and resources

Do you have STEAM related events, workshops, conferences, resources, or celebrations you would like to share with the NY STEAM Girls' Collaborative network? We would like to help you share! Each month, we send out an e-newsletter, and we need your content and contributions to make it a truly collaborative effort!

Our reach includes formal and informal educators, as well as others who are interested in girls' access to opportunities.

There are two types of content we can send out:

- **Short** - these blurbs are no more than **80 words** and are great for event or resource sharing.
- **Long** - these are no more than **130 words** and can have more description or detail. These are the featured articles in each newsletter.

Some things to keep in mind:

- **Include web links.** Link to more information, resources, registration, etc. The newsletter promotes and highlights, but the full story should be elsewhere.
- **Include an image.** Small, square image files, such as logos, help draw attention and improve the overall look of the newsletter.
- **Edit for clarity.** Please read your submission before sending it to make sure it makes sense to someone who doesn't know you, your organization, or your event.

Any material submitted may also be promoted via the NY STEAM GC Twitter feed, Facebook page, or LinkedIn page, increasing the range of promotion!

Please send your March submissions to NYSTEAM4girls@gmail.com by 1 PM on **Friday, February 23rd**. We will try our best to include all inputs received! Email us at the same address if you have questions.
